

Ideation Phase

Empathize & Discover

Date	09 October 2022
Team ID	PNT2022TMID24172
Project Name	Project - Essential Water Quality Analysis and Prediction using Machine learning
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviors and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

EMPATHY MAP

Efficient Water Quality Analysis and Prediction
